Document Title	Powerex Reply to Death Star
Document Author	Dr. Richard D. Tabors, President, Tabors, Caramanis & Associates
Doc. Date (mm/dd/yyyy)	03/20/2003
Specific finding made or proposed	Powerex Corp.'s Reply Comments and Rebuttal Testimony and Exhibits ("Powerex's Reply") demonstrate that the allegations set forth by the California Parties in their findings of fact and exhibits consist principally of innuendo, incorrect inferences, manipulated data and distortions of fact, and fail to support the California Parties' claims that Powerex engaged in market manipulation. Specifically, the Powerex Reply shows that, on review, the evidence proffered by the California Parties either: (a) does not support the proposition or inference alleged by the California Parties; (b) supports the California Parties proposition, but is not probative of deceitful conduct, market manipulation, tariff violations, or other alleged wrongdoing; or (c) supports a contrary inference which bolsters Powerex's position.
Time period at issue	a) before 10/2000; b) between 10/2000 and 6/2001

Specific finding made or proposed	Powerex Corp.'s Reply Comments and Rebuttal Testimony and Exhibits ("Powerex's Reply") demonstrate that the allegations set forth by the California Parties in their findings of fact and exhibits consist principally of innuendo, incorrect inferences, manipulated data and distortions of fact, and fail to support the California Parties' claims that Powerex engaged in market manipulation. Specifically, the Powerex Reply shows that, on review, the evidence proffered by the California Parties either: (a) does not support the proposition or inference alleged by the California Parties; (b) supports the California Parties proposition, but is not probative of deceitful conduct, market manipulation, tariff violations, or other alleged wrongdoing; or (c) supports a contrary inference which bolsters Powerex's position.
Time period at issue	a) before 10/2000; b) between 10/2000 and 6/2001
